

ATTEMPTED TO BREAK INTO W. J. LARKWORTHY'S STORE

On Tuesday night an attempt was made to get into W. J. Larkworthy's store in New Hazelton. Some kind of an instrument was used in an effort to spring the lock on the front door, but apparently the would-be robber was not successful. Inside the store there was no evidence that anyone had been in and nothing was missing. There was money left in both the store till and in the post office till and it was not touched. Apparently the person who tried to get into the store was in the know because that was one of the very few nights that Mr. Willan did not sleep at the store. It was also an attempt by an amateur as the door could easily be opened by one who had any knowledge of the business of robbery.

MINING FOR SILVER?

Silver prices are increasing and the mining of silver is more promising now than for many years. This is in spite of the mining brokers and mining promoters whose sole object is to sell the stock to the public without a care about mining for silver. There has been nothing that has hurt mining in this country, than the habit of mining the investor. One does not have to go far from his own back door to find numerous examples of this. When an honest effort is made to mine for silver there will be lots of money available for the preliminary stages.

A NEW HEN

Canada has contributed materially to what is claimed as a new hen which has been evolved by agricultural experts and scientists at Cambridge University, Eng. The bird at the moment is the object of considerable attention in the Old Country, and concerning it the "Spectator" says: "Few successes of greater interest and practical possibilities have been won in the field of agricultural biology than the making of the new Cambridge hen. Her chicks declare their sex at birth, because the males and females are differently marked. This is a great advantage to the poultry industry, since chicks travel safely and well only during the first two days of their life. The new breed, known as Cambar, was developed by Dr. R. C. Punnet and his associates at Cambridge, by the application of Mendelian principles. By the use of the Canadian Barred Plymouth Rock (supplied by the University of British Columbia) both silver and golden Cambars have been evolved. They are prolific layers of large colored eggs. These chicks mark an epoch in the scientific breeding of poultry."

FARM CLUB WORK PROGRESS

Reports of progress in connection with the work of Boys and Girls Farm Club movement continue to arrive from all provinces, particular attention being given to the rapid strides made by boys and girls club work at Sacre Coeur, Saguenay, Quebec. Until the last few years this district has not been very progressive in live-stock production. Prior to 1930 there were no pure bred bulls in the locality, but in 1931 five French Canadian bulls were placed with associations organized under the Dominion Department of Agriculture Bull Loaning policy. The progeny of these bulls have been used in starting calf work, and now the boys have taken the initiative in organizing a campaign to eradicate warble fly. The boys have also interested their parents in improved cultural methods, and at least one acre of roots is being grown on each farm.

F. M. RATTENBURY MURDERED

Many in this country will be interested in the announcement that Francis M. Rattenbury, formerly of Victoria, B. C., died in London recently following a motor crash, and George P. Stoner, his chauffeur, has been charged with murder. It is claimed he first hit Mr. Rattenbury on the head with a mallet, and Mrs. Rattenbury is also charged with wounding her husband with intent to kill. The late Mr. Rattenbury was well known in northern British Columbia where he was one of the largest land holders for many years. He was also an architect and several of the more important buildings in B. C. were his work.

CHEAP RAILWAY TRAVEL

Bargain fare trips from British Columbia points to the prairies will be on sale at Canadian railway stations from April 15 to April 21 inclusive, according to an announcement made recently by the representatives of the Canadian railways. These very low fare tickets will have a return limit of 21 days exclusive of date of sale and will be good for stop overs at Jasper and Banff.

This attractive travel offering will be on a cent a mile basis for coach travel. It will also be possible to buy tickets good in tourist and standard sleepers for one-and-a-quarter and one-and-a-half cents a mile respectively, plus regular sleeper charges. Tickets will be on sale at all stations in B. C. as far east as Blue River and McBride to all stations in Alberta, Saskatchewan and Manitoba, and western Ontario as far east as Armstrong, Fort William and Port Arthur.

A BIG DOG FOR THE QUINTS

A nine months old Dane has been presented to the Dionne quintuplets in their Callander Hospital. This news item will recall to mind a picture so often seen on the walls of homes years ago—"Can't you Talk?" The quintuplets have started cutting their teeth and will probably talk before the Dane. But, there are dog lovers who will believe that the Dane will know much more about life before the famous five will.

TWO HISTORIC OLD FLAGS

The first Union Jack and the first Red Cross flag flown during the Great War over the Canadian troops in France have been deposited in the historic Confederation chamber in the Province House, in Charlottetown, P. E. I. They were presented to the government of Prince Edward Island by Major J. S. Walker of Charlottetown, a veteran of the South African war and the Great War, who gave three sons in the last war, only one of whom survived. The last time they were flown was in 1915 when Canada's then Minister of War, the late General Sir Sam Hughes, visited the trenches in the early part of that winter. The first meeting at which Confederation was discussed was held in this chamber in 1864 and many tourists visit it each year.

Hon. McKenzie King and his followers in opposition at Ottawa are fighting hard for an early election, in hopes that Premier Bennett's health will not allow him to take part in the campaign. That is the one thing that the Liberal party fears. But Bennett will be back.

W. G. Crisp and Mrs. Crisp have returned to Kitwanga after a trip to the south.

Prince Rupert

By The Sea

From Our Own Reporter

Chris Graham, for more than forty years a railroader and with a particularly fine record as engineer will, re-early in the summer. Mr. and Mrs. Graham and family plan on making their home in the southern part of the province.

The wedding of Miss Phyllis Way of Seal Cove, and Edward Smith, son of Corporal and Mrs. Smith, formerly of Prince George and now of Kamloops, took place on the evening of March 30 at the home of Mrs. Dugate on Water Street. It was a most attractive ceremony with Canon Rushbrook officiating.

Prince Rupert is about to do some thing for the local unemployed without appealing either to Ottawa or to Victoria. The city will be canvassed to obtain a pledge from householders to give at least some work, in the shape of clean-up or repair jobs in or around the house, to those who are capable of working and feel disposed to bestir themselves.

The city was recently honored with the presence of Most Rev. Derwyn Trevor Owen, of Toronto, primate of Canada. The head of the Church of England in Canada who certainly looks the part, with his white hair and benign face, was entertained by the Rotary Club at luncheon. Touching on the economic situation Archbishop Owen as much as intimated that hard times will never disappear, so long as people will persist in sitting down and wishing, instead of being up and trying to do something for themselves. Hard work, thrift and initiative for example had something to do with the story of the province of Ontario.

DO INCOME TAXES REVEAL AND ENCOURAGE CRIME

It has been newly bewailed that through the listing of those eligible to pay income taxes kidnappers are given a tip. Some people hold that certain large fortunes were practically stolen from the people anyway. Two wrongs do not make a right. Some "thinkers" should shirk. Some thinkers should throttle with ideas aborning. Men used to be hung for stealing a horse no matter by what kind of bargain he was gained by his owner. Furthermore the horse was seldom harmed. There will not be many in this part of the country kidnapped because of their income tax returns.

CARING FOR BANANAS

Bananas grow upward on the tree, not downward as commonly supposed. The banana has a well recognized food value and great care is taken in transporting them. The bunches are cut down while still green, a tree yielding only one bunch, and it takes twelve months for a tree to reach the stage where the fruit can be cut, each tree being cultivated from suckers which spring from the root when the tree is cut down in gathering the fruit. Still green the fruit is placed in cold storage bins provided on the "Lady" liners and "banana" boats of the Canadian National Steamships and every precaution is taken to maintain the correct temperature during the north-bound journey.

HON. MR. HANSON SPEAKS

Of Those who Spread False Reports of Premier Bennett's Health

Ottawa, March 30—"Mendacious and malicious statements about the health of Prime Minister R. B. Bennett are being circulated in the press and in other ways by persons opposed to him. Hon. R. B. Hanson, minister of trade and commerce, charged today in the House of Commons.

At the same time the minister made it clear he did not hold Liberal Leader Mackenzie King responsible and did not doubt the sincerity of Mr. King's expressions of hope for Mr. Bennett's recovery.

Mr. Bennett, he said, would be back in the House before the end of the session and would lead his party at the general election.

News of Dorreen

Dorreen News

John Watson and Taffy O'Brien, who have been placer snipping on Lorne Creek for the past two years, have at last been rewarded for their efforts. They have discovered an old channel and have already secured the ground. Now they are raring to go. The gravel is rich by all indications, and it is hoped they will be well paid for their persistence.

J. Hillyard had the misfortune to lose his home by fire while away doing his relief work. He is now in his 70th year and the entire community extends its sympathy. He is now busy trying to re-establish himself.

Last Saturday evening the residents of Dorreen walked to Lorne Creek, taking with them all the necessary refreshments and pleasantly surprised Mr. and Mrs. Leake. The occasion was the fortieth anniversary of the wedding of Mr. and Mrs. Leake. After playing whist and indulging in a sumptuous repast, the balance of the evening was a varied entertainment which concluded with songs and talks.

There is general regret that Danny Matheson is not yet able to return to his home here. He has been under the doctor's care for some time.

Miss Isabelle Frot has returned from Edmonton, where she has been visiting friends for the last month.

NEW COMPANY FOR OMINECA

Word was received in Vanderhoof last week, according to the Nechako Chronicle, that an important mining deal took place recently in San Francisco when Chris. Allen and associates of Vancouver optioned a large dredging property situated in the delta of Germanen creek, to British mining interests. This property is adjacent to the holdings of Germansen Mines, Ltd., and it is understood that the Old Country company intend to bring in a drill at an early date and test the ground thoroughly. This transaction marks an important step in the development of the Omineca placer district.

Premier Hepburn of Ontario has cancelled contracts made by the Ontario Hydro Electric Commission for several hundred thousand horse power that private companies have no market for. This will save the people of Ontario some two hundred million dollars within the next forty years, and will save the life of the Hydro Commission which has fallen upon evil days since Sir Adam Beck's time.

POLICE FIND A STILL

The Mounted Police on Monday and Tuesday were investigating how, when and where a young Indian girl of Haggwilget got liquor in quantities sufficient to make her feel better than normal. Tuesday evening they visited the shack of John Persson in New Hazelton. They were not meeting with very much success, but one of them started to nose around the shack and found a still. They took charge of the still and of Persson and on Wednesday took him to Smithers for trial. The accused man claimed he had found the still in the bush. It had not been used recently, and no liquor or mash were found in the shack, just some home made beer.

GOLF CLUB BRIDGE FRIDAY

Last Friday evening quite a crowd was present in the Anglican hall in Hazelton to participate in the bridge party under the auspices of the Hazelton Golf Club. There were nearly a dozen tables and the prizes were won by Mrs. Chappelle and S. Mallinson.

LOCAL LIBERALS ORGANIZE

There was a meeting of the local Liberals held last Friday night in the residence of R. J. Morrison and the following officers were elected for the ensuing year:—

President—Gus Christiansen.
Vice Pres.—Leo Spooner
Sec. Treas.—S. H. Senkpiel
Ex-Com.—The above officers and J. H. Willan and Bert Spooner.

It is reported that further business than organizing was left over to a meeting of the new executive.

CROSS BREEDING POULTRY FOR MEAT AND EGG PRODUCTION

Breeders have long known that the cross of two pure breeds gives offspring which are superior to either of the parent breeds in vigor and economy of growth. At Ottawa the Dominion Government made a cross of the Barred Plymouth Rocks and S.O. Leghorns white) to see what difference there might be between the cross and the pure breeds in both meat and egg production. At eight weeks of age, the cross bred males were a little heavier than the Rocks, and the Rocks a little heavier than the Leghorns. In addition to more rapid growth, the cross-breds were slightly more economical in their use of feed. At sixteen weeks of age, the crossbreds and the Rocks averaged around four lbs. each and the Leghorns three and a half pounds. After this age the Rocks made greater and more economical gains than the cross breeds and considerably more than the Leghorns.

In egg production the cross breeds averaged around ten per cent more eggs for the pullet year than the pure Rocks and Leghorns. The Leghorn male X Rock female crosses gave a greater egg production than did the reverse cross. In the Leghorn X Rock female cross the sex of the chick may be determined with a high degree of accuracy at hatching time by the presence of wing feathers in the female, while in the male chick these are absent or comparatively small.

The crossing of Leghorns and Rocks therefore offers some advantage from both the standpoint of egg production and meat production as broilers or up to about four pounds weight, after which the pure Rocks are superior. To obtain the advantages of cross breeding, it is essential that only good pure breeds should be used as parents and the cross breeds should be used for egg and meat production and not as breeders.

ANOTHER ATTACK OF THE "PIP"?

The staff of the Interior News suffered another attack of what he calls the "pip", and instead of going to the hospital as he did last time, he vented his spleen on the Omineca Herald and even went so far as to include the Prince Rupert Empire—this was to show how broad-minded he is in reading two such independent papers. The Herald has occasionally printed an article favorable to Hon. R. B. Bennett, also favorable to E. T. Kenney, Liberal M.L.A. for Skeena. But that Bennett stuff was going too far. It got under the skin of the ultra-Liberal Interior News writer. It made him see red, because he has not yet been able to say anything favorable of Hon. Wm. Lyon McKenzie King, the Liberal opposition leader.

We extend our sincere sympathy to the staff of the Interior News in this its second attack of the "pip". We recommended that when the News feels the next attack coming on that it go to the hospital, even though its conscience does smite it, the general pub-

lic will not be offered so much silly nonsense to read as was offered in its last issue, and on the editorial page. It was so silly that it is hard to believe that the regular writer could have written it, even though he was suffering from the "pip."

Early in its ravings the Interior News accuses the Omineca Herald of reviling Hon. Mr. King. How can, or why should, one revile the inanimate? But having satisfied itself that the Omineca Herald had been properly squelched, the Interior News then goes on to demonstrate how to revile in the true, thin skinned Liberal way. It takes the Premier of Canada as its special object of attack and reviles in every possible way. It was really too utterly silly.

WITHOUT MINCING WORDS

In a recent message to Congress President Roosevelt made his position clear on a subject of interest to many classes of people. He was exposing wrongs practised by great holding companies when he said:—"I am against private socialism of concentrated private power as thoroughly as I am against governmental socialism. The one is equally as dangerous as the other; and destruction of private socialism is utterly essential to avoid governmental socialism." It was recently brought out in Albany that one man and his associates, by pyramiding securities, has made thirty-four millions in one year on money other people put up.

BENNETT WILL BE BACK

Newspapers which for reasons of

their own are opposed to the Conservative party, and especially to Mr. Bennett, have been having a grand time during the past few weeks with the subject of the Prime Minister's illness. Especially the big city dailies allied to the Grit cause have been carrying on a crafty campaign of innuendo and inference designed for the most part to convince their readers that Mr. Bennett's condition is far more serious than it is, that he has suffered a complete breakdown, that his retirement from public life is imminent, even that his life is in danger.

Woven with these gross exaggerations to produce a pattern of cunning political partisanship is the suggestion that it is all Mr. Bennett's own fault. Enough crocodile tears have been shed by Liberal correspondents and editors during the last few weeks to restore green lushness to all the drought stricken prairie plains.

Mr. Bennett was stricken with gripe on February 24, like thousands of other Canadians. His doctors told him to go to bed and stay there. He did so and is so far improved that he will shortly take up his work in the House again. But Bennett will be back and that is what his political enemies most fear.

Hon. T. D. Pattullo, premier of B. C. was on the air last Friday night, giving a report to the people of the last session. While he spoke over the strongest station in B. C. it was not strong enough to get over the American nation on the same channel. As a result only a very small percentage of his talk could be heard, which is not all satisfactory.

About Terrace

Born to Mr. and Mrs. W. Adams on March 25th, a son, David Edward.

Mrs. T. J. Marsh and her daughter, Mrs. J. Farquhar, arrived from Rupert on Wednesday. Mrs. Farquhar plans to spend two weeks here before returning to the coast.

The L.O.L. put on a very enjoyable whist and cribbage evening on Thursday of last week. Miss Clara Little and W. Donald carried off the whist prizes and Mrs. Olson and Mrs. Vanderlip won the crib prizes.

Miss Margaret Kells of Eugen is holidaying with her sister, Mrs. E. Haugland.

Quite a number of the younger generation made the trip to Remo on Saturday night to take in a dance at the strawberry centre.

On Saturday, March 30th, Maurice Barnes and Pauline Hannah Lowry, youngest daughter of Mr. and Mrs. R. Lowry of Usk, were united in marriage. The ceremony was held in the home of Mrs. Kelley and Mrs. Kelley acted as matron of honor, and Mr. Bernt, as groomsmen. Rev. W. R. Welch officiated. In the evening a dance was held in the Bethurem hall in honor of the happy couple.

Joe Coburn made a trip to Terrace on Friday returning to his home in Usk the same day. On Saturday, just after noon neighbors noticed the roof of Joe's house on fire and a hurry up bucket brigade got busy and saved the building. Joe, who was in the house did not know anything about the affair and wondered what all the commotion was about. Only slight damage was done.

Old Man Weather had his own little April 1st joke on the district. The ground was frozen hard Monday in the morning and a cold wind was blowing. It is not spring yet.

W. J. Martin left for Prince Rupert on Tuesday.

E. T. Kenney Doing Business After Session

E. T. Kenney, M.L.A., arrived home from the Legislature on Wednesday. He looked fit and hearty after the big strain of the past six weeks, and had many interesting things to tell of the session. While no legislative action was taken as a result of his speech dealing with compensation and old age pensions matters he says his remarks did stir up some considerable discussion, and the chairman of the workman's compensation board made a trip to the capital to give members a lot of light on this subject. Mr. Kenney believes that as a result, there will be a much greater measure of satisfaction along compensation lines.

Discussing the New Westminster bridge, he feels that as the bridge is a toll proposition it will be paid for by the people who use it. He cannot see where Vancouver has any kick on the matter as they already have one toll bridge within the city and have voted for a second one. As the people in the north will seldom use the New Westminster bridge, he feels that the people should not have to pay for it through general taxation. No bridge is a free one, he says, as if it is not paid for by tolls it is paid for by the people generally, and that means that many non-users have to dig down to furnish funds for something they have no personal use for.

Approximately 15,000,000 barrels of wheat flour are manufactured annually in Canada, besides many other kinds of flour, such as potato, corn, buckwheat, barley and rye. The con-

SKEENA WONDERS AND ACES WERE THE WINNERS

The basketball season wound up on Saturday night with the Skeena Wonders topping the senior league. They played their last game with the Alaskas and came out on the long end of the score. The game was fast and clean and was one of the best exhibitions of the season.

The Reds won from the Aces with a score of 26 to 20 and carried off the pennant in the ladies league. The Aces put up a stiff fight in spite of the fact that they had only four players on the floor during the whole season. Much of the success of the Aces is due to the skilful coaching of Kenney Kerr who has been the teams manager. The season was brought to a close with a very enjoyable dance at which the Terrace orchestra furnished the music.

WHO WILL DO THE PITCHING?

There is considerable discussion as to who is going to pitch for Terrace when the baseball season comes along. In times past the local boys have seemed to have a preference for "Fred's." Fred Scott was the old standby, but last year he had a lot of help from Fred Thomas and Fred Mist. During the winter Fred Thomas sprained his pitching arm and he does not feel any too peppy for doing the twirling, and Fred Mist made a trip to Rupert and returned minus an appendix. However, Dnd Little is confident that when the time comes there will be no lack of pitching material, he has some of the youngsters in mind.

The hunters say they are going to have some real fun this fall when duck hunting opens. They did fairly well last year, but they felt they lacked decoys. So one of the crowd is busy in his spare time carving out a number of wooden ducks. He's using cedar, and to hear him tell it, he's making a real job of the work.

LATE WILLIAM MEGGERSON

William Meggersson of Usk passed away at Terrace on Tuesday night after an illness of a few days. He was one of the old timers in the valley, and most of his life along the Skeena was devoted to placer mining. His chief scene of operations was on Gold Creek. A week before his death Assistant Public Works Engineer W. H. Cotten and W. Little were coming into town, and the deceased decided to come along as he was not feeling good. The funeral was held on Thursday, Rev. W. R. Welch conducting the ceremony, the pall bearers being W. Carrigan, W. A. Kirkpatrick, R. Munger, H. A. Swain, J. Anglin and W. Robinson.

THE FEMALE OF THE SPECIES

John Hagen and Dnd Little are sure Kipling was right when he said "The Female of the Species is more deadly than the male." The conviction was arrived at on Sunday afternoon when the boys were doing a little target practice. One of the boys turned to one of the dimbels among the audience and remarked "Try a shot." She did and got three bulls eyes out of four shots. Then the boys tried and some thing must have gone wrong with the gun. They got one bulls eye between them after marking the target all up with lead. A goose is about the smallest target they are good at.

School Inspector T. H. Hall was in the district this week looking the local school over.

Jens Earlanson and Herman Froese of Remo were in town on Friday.

Although the turkey shoot season is past the boys are not content to oil up their rifles and store them away for a few months. Walter Martin has a Lee Enfield, and he knows it can shoot straight. Some of the other fellows claim they can do just as well with their 22's. There is a lot of argument over the matter, and some ammunition is being used to prove the arguments. John Hagen of Copper City is in on the argument and last Saturday he did some practicing with his small rifle.

Regularity! TO MERCHANTS

"You sweep out, you trim the windows, you dust off the counters you make up new price cards, you unpack and arrange new stock, you plan your merchandise showings, you do these and a hundred other necessary jobs, REGULARLY in the normal conduct of your business.

"But how about the biggest job of all—contacting the people and telling them repeatedly that you are in business and have the goods they need....Do you do that REGULARLY? Do you figure you are going to get your share of the available business if you don't tell folks about your merchandise and service at REGULAR intervals instead of doing the job spasmodically or not at all?

"By all known tests, experience and thousands of records, the acknowledged best-of-all medium for REGULARITY is advertising in the local newspaper. A newspaper going REGULARLY in to the homes of your prospective customers, not only in your town but the surrounding territory as well, makes it easy enough for anyone to see how your local newspaper offers you the finest kind of a vehicle for carrying your business message REGULARLY to the people.

"And don't think that these folks won't miss your REGULARITY of advertising. They look for their newspaper REGULARLY, study its advertising (yours, if it is there) REGULARLY.

"And what's more, you'll find they are buying fairly REGULARLY, too, if you'll just check up, especially with the advertisers who do use space REGULARLY.

YOURS FOR MORE REGULARITY IN ADVERTISING

QUEER SOUNDS IN THE NIGHT

The other night we were late leaving town and as the air seemed very tense we were making the best time possible considering weight handicap, etc. Intense might better describe the condition of the air. It was filled with groans, squeals and howls, not a nice place to be in at all, at all. In passing a house we heard a child crying, and the mother trying to pacify it. "No, dearie" the mother said "It's not a bunch of wolves come to town, the Vancouver Island cougars have not moved this way. It's only the new bug pipe band practicing." The child sobbed louder. It seemed to feel the explanation was worse than its wildest fears. There was nothing we could do about it. We hurried away and placed the width of the Skeena between us and the uproar as soon as possible. Gee, I'll be glad when the wife comes home and I won't be allowed out nights.

CERTIFICATE OF IMPROVEMENTS

Valhalla, Valhalla No. 1 and Valhalla No. 4 Mineral Claims. Situated in the Omineca Mining Division of Range 5, Coast District. Where located—On the western slope of Gold Mountain.

TAKE NOTICE that I, Frederick Nash of Terrace, B. C., acting as agent for Ernest Victor McKague, in trust, free miner's certificate No. 62547D, intend, 60 days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining Crown Grants of the above claims. And further take notice that action under section 85 of the Mineral Act must be commenced before the issuance of such Certificate of Improvements. Dated this 3rd day of April, 1935. 20-28

The I. O. O. F. put on a minstrel performance on Friday night in their hall that drew a capacity house, many of the audience having to stand. Jim Smith was interlocutor, with A. Attree, F. Hall, H. King and W. Oliver a end men. Mr. Doney was violinist and Mr. Herbert handled the drums while J. McLaren drew sweet strains from his accordian and D. Doney, G. Griffith and J. DeKergommeaux played banjos. The event was very successful and the audience admitted getting its money's worth.

The Canadian Legion is putting on a smoker in the Terrace Hotel on the 9th of April in commemoration of Vimy Day. The event is free to all returned men, and it is hoped there will be a good attendance.

WATER NOTICE

Diversion and Use

Take Notice, that Fred M. Wells, whose address is Wells, B. C., will apply for a license to take and use 2 cubic feet per second of water out of McNeil creek which flows southerly and drains into Zymoetz River about 13 miles from its mouth.

The water will be diverted from the stream at a point about 2000 feet from the mouth, and will be used for mining (under pressure) purpose upon the Mine described as Dardenells Group of Mineral Claims.

This notice was posted on the ground the 17th day of February, 1935. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Smithers.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

Horticultural Demonstrations

E. W. White, Asst. Provincial Horticulturist

TERRACE APRIL 4, 5, 6, 7

REMO APRIL 8

WOODCOCK and KITWANGA APRIL 9, 10

Demonstrations and instructions will be given at appointed farms during the day and in evening talks on pruning, grafting spraying, small fruits and vegetable production.

See the Secretary of your local Farmers' Institute for full particulars. Anyone wishing information on particular problems they have, can secure details by sending a description in care of the District Agriculturist, Smithers, before the above dates.

Doings Around Home

Of interest to you and your friends

W. J. Larkworthy will probably be home in a few days after a three months trip to Ontario to visit his old home in Stratford, and other points.

Service will be held in the New Hazelton church on Sunday evening next at 7.30. In the morning O. Grondahl will preach in the Hazelton United Church at 11 o'clock.

The Ladies Aid of the New Hazelton church will meet at the home of Mrs. Sawle on Thursday afternoon of next week.

Premier Pattullo thinks it is about time some of the press of the province was muzzled. A couple of years ago when Hon. S. F. Tolmie was the target of those same papers Mr. Pattullo thought it was fine fun.

The Railways in Canada are preparing for a bigger tourist travel this year than for quite a while. There will be more or less visitors to these parts. It would help give a favorable impression if the citizens would clean up their premises, front and back, plant a few flowers and try to make the place appear as if some one lived around.

The Canadian Golf championship is to be played off this year in Hamilton Ontario early in June. As yet there has been no announcement of an entry from the Hazelton Golf Club.

The American press reports via the radio, devote most of the allotted time to affairs in Europe where the boys seem to be planning on another war. If some one would only start it.

If the men in the unemployed camps destroy the camps, as they threaten to do, what will those unemployed do for a place to eat and sleep?

Word was received the first of the week by George Hall that his sister, Daisy, Mrs. Bollard, of Calgary was in a serious physical condition. On Tuesday Mrs. Leo Spooner, a sister of Bollard, left for Calgary.

Chris. J. Graham, locomotive engineer on the C. N. R., is to be retired on a pension this year, having completed 47 years of service. In the early days Chris. was a familiar figure on this division, but of late years he has been running out of Rupert.

An Englishman claims to have developed to a commercial success a new system of electric lighting which is going to do away with the bulb system. The new system is by tubes and every corner of a room is lighted and the system is more economical.

The Maroons of Montreal and the Maple Leafs of Toronto will play off for the championship in hockey circles and for the Stanley Cup. The first game will be played in Toronto Thursday night.

Gerry McGee is almost persuaded to desert British Columbia in favour of the money marts and the industrial centre of Ontario. He says he has already been offered a constituency in Ontario for the Dominion House and that he might take it. Go to it Gerry.

A commission has been set up by the Dominion Government to look into the conditions prevailing in the unemployed camps in British Columbia. Three Vancouver men will investigate and report.

If the Liberals are elected to office Mr. Ian McKenzie of Vancouver pro-

mis on behalf of the party that the Bank of Canada will be abolished and a new bank owned by the people will be set up. This will give the government in power the control of the money and the credits and by it should never want for campaign funds or for a good patronage barrel. It was to avoid this very thing that Premier R. B. Bennett held out for a privately owned bank with all the stock holders good Canadians.

Mr. Jack Frost can get away to his summer home now any old time, in fact the sooner the better. He has already outworn his welcome and the birds and the grass and the flowers want a break.

Capt. G. C. Mortimer entertained at bridge at his residence on Monday evening last.

While the snow plow made a trip last week from Smithers to Moricetown, the roads around this district are now in shape for the grader, and the sooner it is put to work the better.

The regular monthly meeting of the W. A. to the H. H. was held on Tuesday afternoon at the home of Mr. and Mrs. H. C. Wrinch.

Wiley Post flew through the stratosphere from Los Angeles to Cleveland in eight hours and four minutes. That is nearly twice as quick as he could have made it at ordinary

A Dance will be given under the auspices of the W. A. to the H. H. in the Venetian Hall, Hazelton, on Friday evening, April 5th. Admission 50c.

Approximately 15,000,000 barrels of wheat flour are manufactured annually in Canada, besides many other kinds of flour, such as potato, corn, buckwheat, barley and rye. The consumption of flour in Canada averages one barrel per head of population. Canadian flour is exported to all parts of the world, particularly to the British Isles.
